

MacDade Bowl COVID-19 Compliance

Our focus remains on you and your safety. We are following all CDC and State of Pennsylvania Health Department guidelines. We wanted to take this time to review some of the measures we are taking in this initial phase of reopening.

- Guests are required to wear a mask when entering and walking around the center. Once you arrive at your lane to bowl you may remove it. If you need to leave your lane for any reason, your mask must be put back on.
- Floor decals have been installed at guest service areas for social distancing reminders.
- Plexiglass has been installed at customer service counter.
- Seats have been removed and/or are marked for social spacing. Please do not move seats.
- A Sanitization Stations are provided for guests.
- We are at 50% capacity so only every other lane will be in use for public bowling. There will be no pairs given out unless a group is more than 5 people.
- Bowling balls will be on the ball returns for your use (1 of each weight). Please do not take bowling balls from other returns. When you are finished bowling please leave your rental shoes and bowling balls on the lanes and we will come and sanitizer them and return them.
- Please do not camp out when bowling is done. Once bowling is completed, you must exit the facility.
